How to process a SIPP new business application

This guide is demonstrated using an adviser user with master user role permissions. If you have a different user role permission, some functionality may not be available to you.

To start the Self-Invested Personal Pension (SIPP) new business process, you first need to create your client.

To create and search for your client please refer to the guides on our website.

If you're topping up an existing SIPP, please refer to the relevant SIPP top up guide on our website.

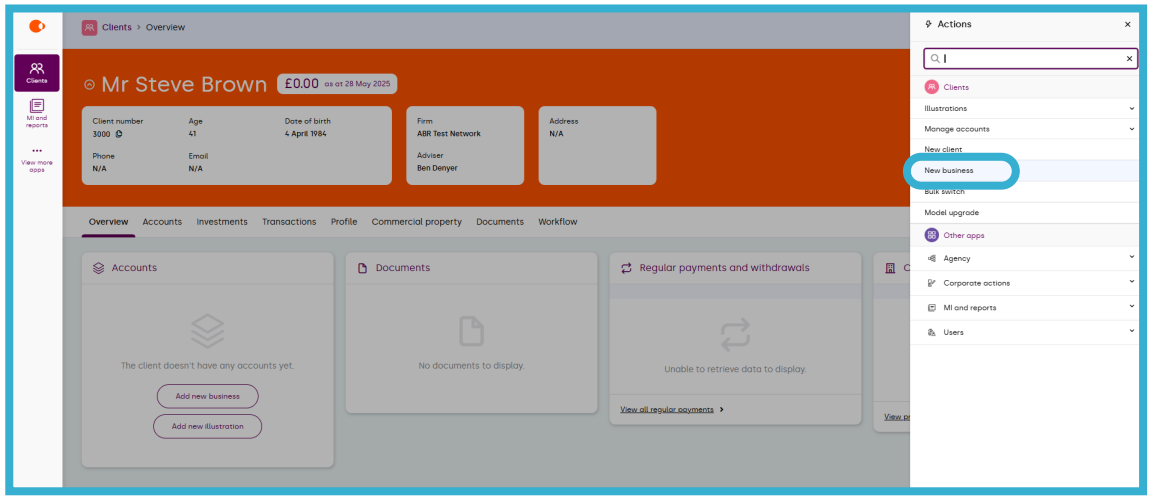

Ensure that you have your client's drawdown, crystallisation, annuity, LTA and bank account details, if your client will be taking any pension benefits. You'll be asked for this information during this application.

Once you've created or located your client, you can refer to this guide to proceed with submitting the new business SIPP application.

From the client home page select the **Actions** button.

A list of actions will appear. To create the new business application, select **New business**.

Key message

At any stage of the application, you can save and exit the application.

To resume the application, navigate to the workflow tab within the client's account.

Full client details

The assigned firm and adviser can be changed by selecting from the drop-down lists.

New business applications can only be accepted on an advised basis. You must confirm advice has been provided by selecting **Yes**.

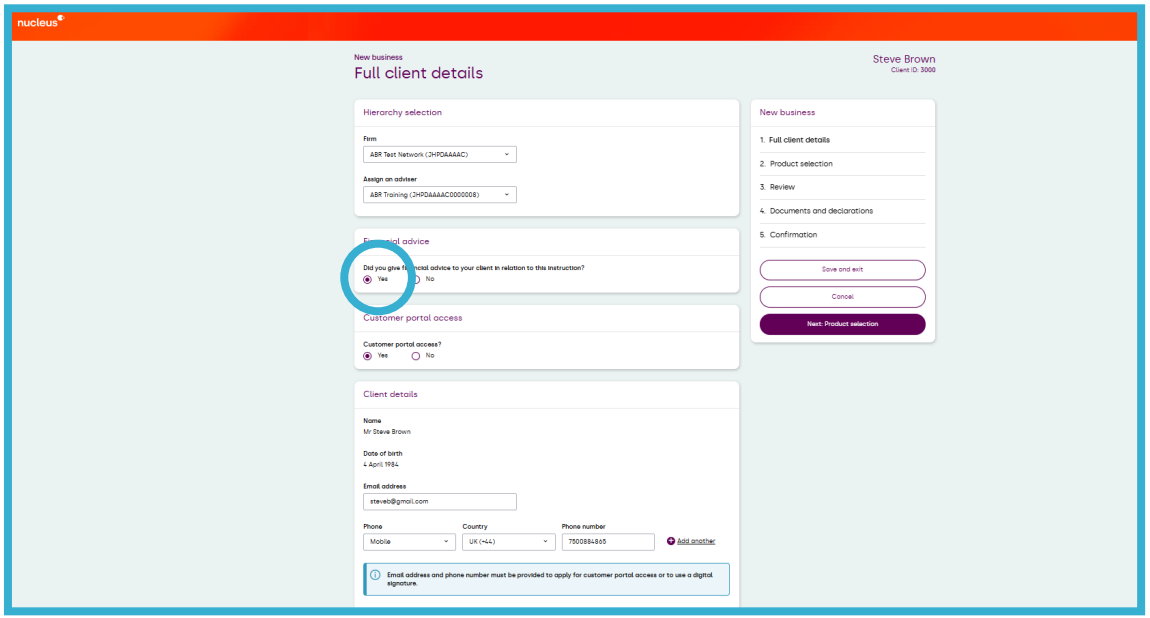

Confirm if your client requires access to the portal.

Key message

If **Yes** is selected, the client will receive an invitation to register to the portal and accept the terms. This email is valid for five days.

If **No** is selected, all communication will be sent by post.

Customer portal access is needed if your client wants to go paperless. It also lets them make additional contributions, investments, and update their contact details. For more information, please see the Customer portal permissions helpsheet.

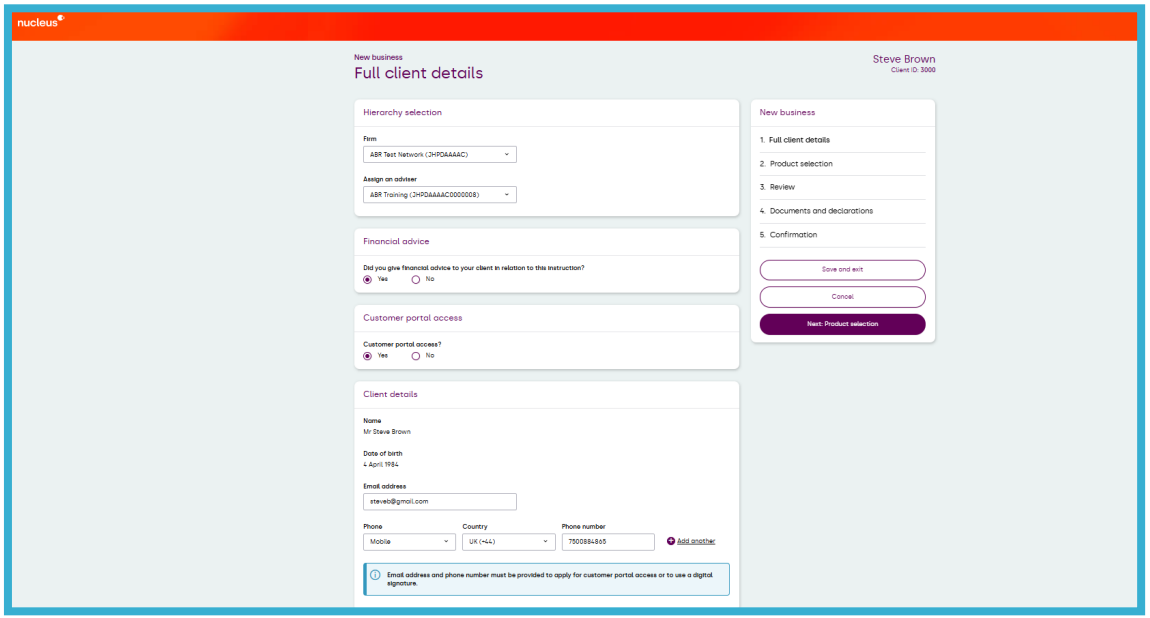

Enter your client's contact details into the required fields.

Key message

The client's contact details are optional, unless your client would like to receive paperless correspondence.

E-signatures and paperless correspondence require an email address.

Enter your client's address or postcode into the search bar and select the correct address. If the address can't be found, select **enter an address manually** and complete the address details.

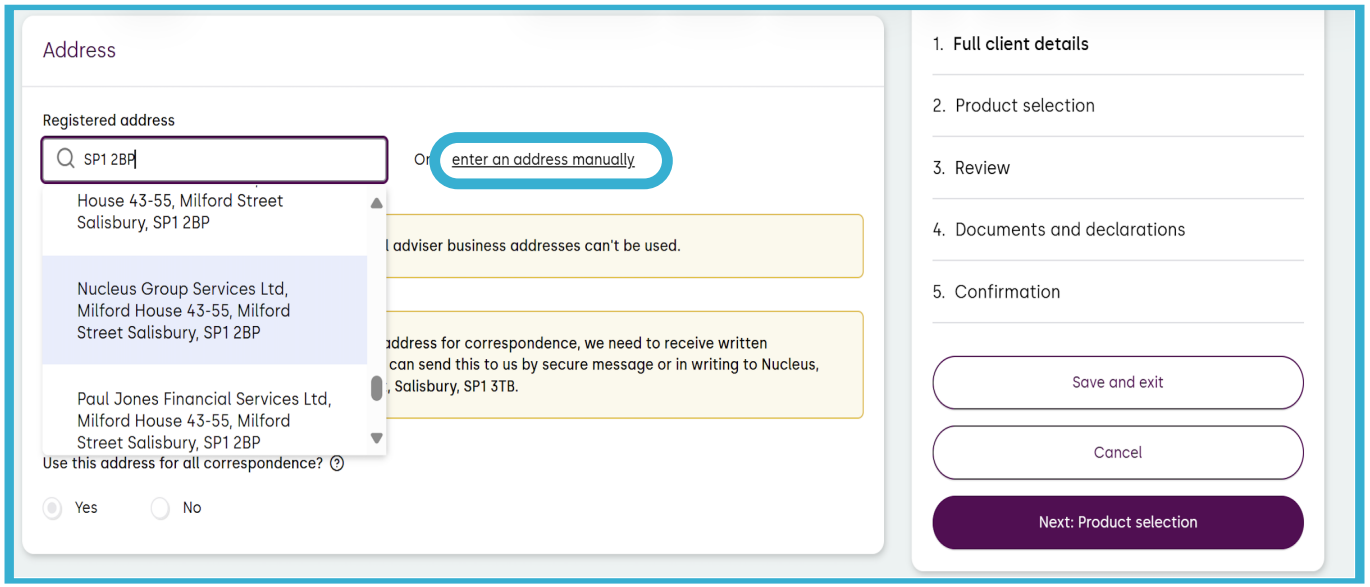

Key message

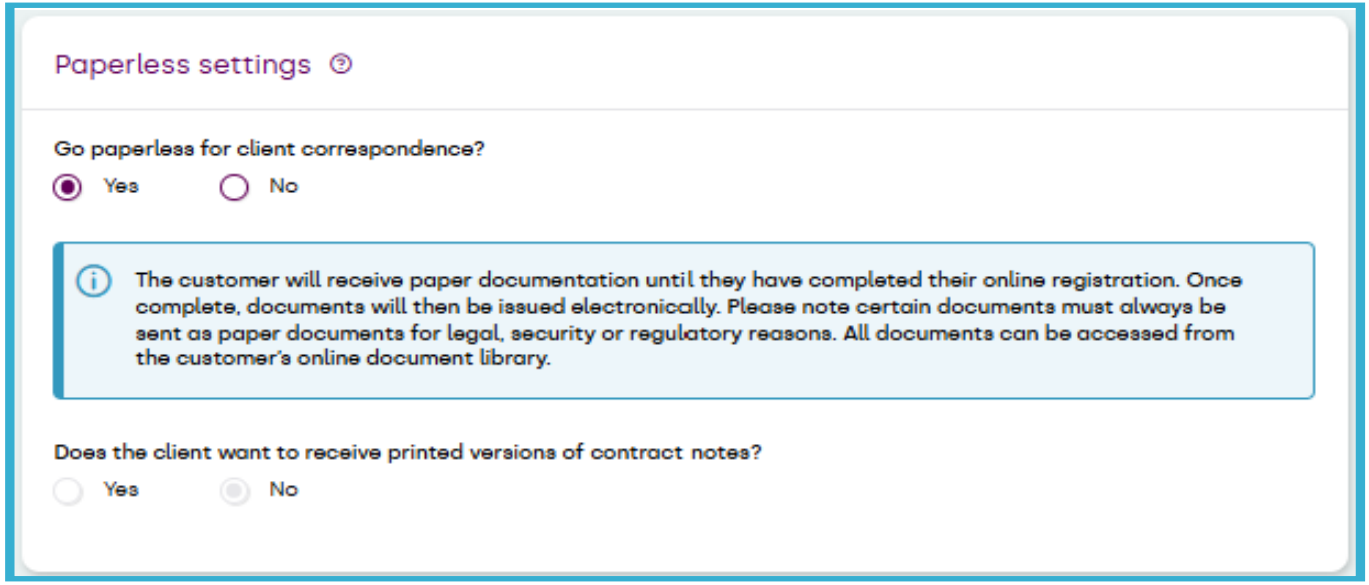

The client's address can be amended once chosen by selecting the '**pencil**' icon.

If the client requires a different correspondence address, please contact us. Alternatively, the client can amend this through the customer portal.

Confirm whether your client would like to receive paperless correspondence, through the customer portal. If so, then also confirm if they want printed versions of contract notes?

Going paperless offers benefits such as enhanced accessibility and better visibility for your clients, often resulting in faster turnaround times for signing documents.

Key message

To receive paperless correspondence, your client needs access to the customer portal. Until they log in and accept the terms, all correspondence will be sent by post. The correspondence preferences can be changed at any time, but some documents may still be sent by post for regulatory/security reasons. For more information, please see the Customer portal permissions helpsheet.

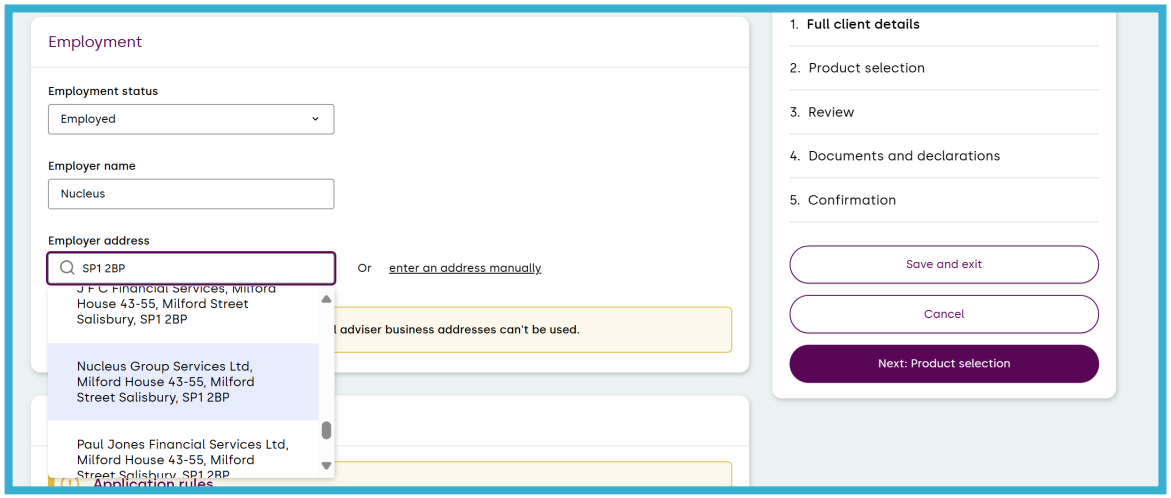

Select your client's marketing preferences.

When marketing promotions are selected, your client will receive our latest news, and promotional campaigns, by email, post or text.
